# GOD IS... LOVE

Happiness is spiritual, born of Truth and Love. It is unselfish; therefore it cannot exist alone, but requires all mankind to share it.

Mary Baker Eddy

You are not alone. Love is with you watching tenderly over you by day and night; and this Love will not leave you but will sustain you and remember all thy tears, and will answer thy prayers.

This I know for sure;  
God is Love, and with  
God all things are  
possible.

Beloved, let us love one another: for love is of God; and everyone that loveth is born of God, and knoweth God. In this was manifested the love of God toward us, because that God sent his only begotten Son into the world, that we might live through him. Herein is love, not that we loved God, but that he loved us, and sent his Son to be world only to be the propitiation for our sins. Beloved, if God so loved us, we ought also to love one another.

I John 4:7-11

Be still  
and  
know  
that I  
am  
God.

In an interview, this question was raised: Marta, how has your wish to be a truly loving person been answered by Christian Science?

Answer: What I discovered in reading Science and Health with Key to the Scriptures by Mary Baker Eddy is that Christian Science is a religion about Love, nothing but Love. I've always tried to be loving, but Christian Science showed me that loving is about the love of God, who is Love. That His love was reliable and so pure, and would never give up on me. From that moment, I *felt* loved. Then it was easy to see Love everywhere.

What would you say is the best thing any one of us could do to turn a solitary time into moments of happy companionship with God?

Answer: I would say the most wonderful thing is to make an earnest study of the Bible and Science and Health. Because in these two books, we gain a deep, fulfilling sense of God as Love, and as governing our relationships and our companionships. ...it enriches all our relationships—our relationships in the workplace and in our home and family, and with our friends.
